

BRAC Workforce Town Hall

12 January 2006

Agenda

- **BRAC Law 2005**
- **Current timeline**
- **Status of Key Issues**
- **Future Town Hall Meetings**
- **Questions**

BRAC Law 2005

On 9 November, the 45 day time limit expired for Congress to enact a joint resolution disapproving the President's recommendations so the recommendations became law.

- **Relocate Transportation Center & School to Fort Lee**
 - Retain Watercraft, Rail and Cargo Specialist Training
- **Relocate Surface Deployment and Distribution Command Operations Center to Scott AFB, IL**
 - Relocate Surface Deployment and Distribution Command Transportation Engineering Agency to Scott AFB, IL
- **Realign Installation Management Functions**
 - Fort Eustis Installation Management to Langley Air Force

Base

BRAC Law 2005

- **Realign Mobilization Mission to Fort Bragg, NC**
- **Convert Hospital to Clinic with Ambulatory Surgery**
- **Relocate Fort Monroe Activities to Fort Eustis**
 - **TRADOC**
 - **Army Contracting Agency**
 - **IMA NERO**
 - **NETCOM Northeast Region**

BRAC Law 2005

Main Party Moves To Fort Eustis from Fort Monroe (TRADOC, NERO, NETCOM, North Region ACA)					
Main Party Moves To Fort Eustis from Fort McPherson (SERO, NETCOM)					
Other Events					
Convert Hospital to Clinic	▲				

Status of Key Issues

- **Transportation Center and School**
 - **Final resolution has not been reached on initiative to retain watercraft, rail and stevedore training at Fort Eustis.**
 - **TRADOC DCG sent memo to Assistant Secretary of the Army for Installations and Environment requesting retention of this training at Fort Eustis.**
- **U.S. Army Transportation Museum**
 - **Recommendation is being made to retain the museum at Fort Eustis.**
 - **Negotiations in progress to retain bulk of museum property at Fort Eustis and send representative sample of Transportation artifacts to Fort Lee.**

Joint Basing Update

- The BRAC Commission voted to support the SECDEF recommendation to establish joint basing at selected installations to include Fort Eustis- Langley AFB and Fort Story - Navy Mid Atlantic Region, Norfolk etc. but amended the SECDEF recommendations as follows:

" ...manpower savings shall not be directed as they are in the DOD recommendations but must be derived from standard manpower and functional analysis studies and cooperative joint determinations between the affected installations. Moreover, the DoD must provide DoD wide standards for delivery of services and common definitions for those services before installation management functions are relocated from the losing activity."

- The OSD sanctioned Joint Basing Implementation Roadmap Study to define standards for common delivery of services and parameters for transfer of installation management is still in progress:
 - Senior Working Group to be briefed in mid-December (exact date TBD)
 - No info will be shared until Senior Leadership is briefed and concurs with findings and recommendations.
 - LAFB, as the lead installation, will probably, in turn, have the lead responsibility for working the specifics of the XFER of installation management between FE and LAFB.

597th US Army Transport Group

Military Surface Deployment and Distribution Command

- The concept plan for the 597th calls for 200 personnel to be stationed at FE but actual numbers are not locked in.
- Requirement is primarily for office space.
- Top floor building 662 will accommodate up to 70 personnel but is insufficient to accommodate the entire organization.
- Exploring shared use of 661 between Joint Task Force Civil Support (JTF-CS) and 597th Trans Group. This would displace IMA Eastern Region. New facilities may be programmed to accommodate IMA Eastern Region.

McDonald Army Community Hospital

BRAC Update

- **MCACH to close inpatient service and maintain ambulatory surgery center**
 - **Expect to keep 95% of current surgical workload as Same Day Surgery**
 - **Will operate 1-2 nights for 23 hour recovery**
 - **Loss of 29 positions**
 - **Mock RIF conducted; actual RIF process complete NLT 5 May 06**
 - **Future inpatient workload to Langley, Portsmouth, or Tricare network**
- **Dining facility converted to food court**
 - **MEDCOM funded renovation**
 - **Expected completion 4th quarter, FY06**
- **No decrease in Outpatient medical specialties or provider staffing**
- **Continuing to improve services**
 - **Initiative for new Gastro-Intestinal service, new Pain service, and increased pediatrics, physical therapy, and dermatology**
 - **Actively coordinating with Langley and VA for opportunities**

7TH Group Conversion to Sustainment Brigade

Overview

- **15 Force Structure changes in FY06 and FY07**
 - Net gain of 671 personnel between Forts Eustis and Story
- **7th Group converts to a Sustainment Brigade**
 - Effective date is 16 Oct 2006 SRC 63400G00
 - Mission: Plan, prepare, execute and assess CSS operations in a UEx (Theater) area of operations
 - Permanent Orders 293-2
 - HHC increases from 93 personnel to 380 personnel
 - 80 Off/18 WO/282 Enl
 - ALO 1, FAD II
- **Comprised of three MTOE (63400GFC06 FC1007) paragraphs**
 - Para 100 HHC, Sust Bde (Main)
 - SRC 63402G2A0 / 228 Personnel
 - Para 200 Sust Bde Deployable Command Post (DCP)
 - SRC 63402G2B0 / 97 Personnel
 - Para 300 Signal Support Detachment
 - SRC 11307G600 / 55 Personnel
- **UIC WD1HAA is unchanged**

Timeline, Tasks, and Milestones

NPG conducts final analysis of 7th Sust Bde requirements out to FY11 by 9 Dec 05.

7th Sust Bde Conversion IPR 8 Dec 05

7th Conversion Plans Brief to Group CDR 25 Jan 06

All personnel requisitioned and equipment requisitioned

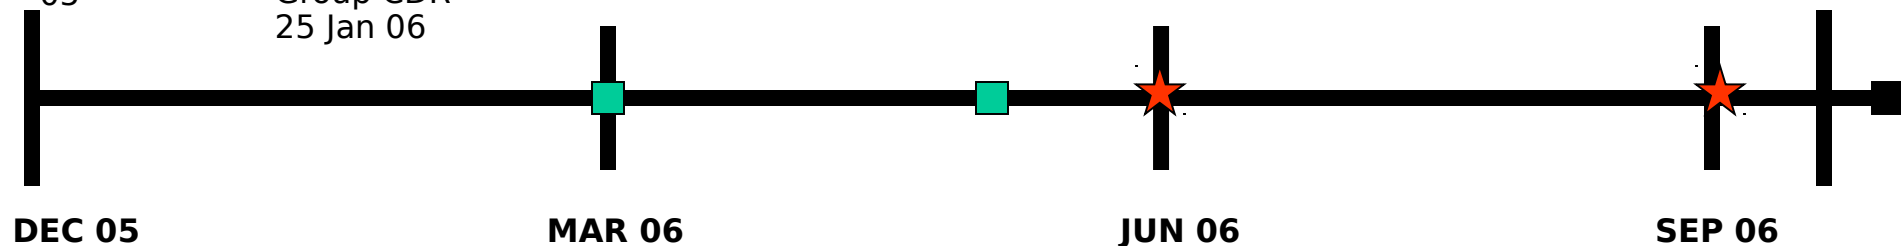

Building occupation plan

Modular/temporary facilities construction commenced 06

Modular/temporary facilities complete Sep 06

Conversion ceremony 16 Oct 06

FY07

★ Milestone ■ Key Tasks

Briefings to TRADOC Leaders

- DCG TRADOC briefed 23 Nov 05
- Planning for briefing to CG TRADC mid to late February
- Purpose: To provide the TRADOC CG an overview of BRAC impact on Fort Eustis; our plans for siting TRADOC HQ and other BRAC incoming activities; and to lay out our vision for the future of Fort Eustis.

Outstanding Issues

- Transportation School impacts still unresolved
- Establishment and impact of the Stationing Review Group (SRG)

Impact-focused Town Hall Meetings

Future Town Hall meetings will be focused on individual workforce groups impacted by BRAC

- Hospital**
- SDDC**
- Transportation School**
- Garrison**

These impact-focused Town Hall meetings will allow dissemination of information focused to the specific employees as they are impacted by BRAC.
